In the Specification:

Please amend the abstract of the disclosure at page 19, the paragraph starting at line 5 as follows:

~~A method, apparatus and computer program product are provided for implementing enhanced~~ Enhanced graphical user interface functions <u>are provided</u> in a graphical debugger. A user interface operatively controls a graphical user interface. A loadmap display manager coupled to the user interface implements a loadmap function. The user interface responsive to the loadmap display manager displays a program loadmap. A custom record display manager coupled to the user interface receives user inputs and implements a custom record display function. The user interface responsive to the custom record display manager displays user selected customized records.
